PHASE 1: THIS DEMO CONCEPT DISK IN ENGLISH ONLY

This disk is only a demonstrator. Only the English language trial is functional. It will explain ELG from the perspective of:

- Partners
- Companies who will subscribe to ELG
- 3rd party users

PHASE 2: SIGN-UP DISK IN 24 LANGUAGES

When ELG commences operations, a new disk will be released which allows companies to sign up for ELG in 24 languages (the 23 official languages of the EU plus Turkish).

PHASE 3: 24 SINGLE-LANGUAGE ELS DIRECTORIES

After sign-up, 24 composite disks will be created. Each will profile in just one language all companies, in every country, who have subscribed for inclusion in that one language.

PHASE 4: COMPOSITE ELS DIRECTORIES & WEBSITE

Assuming the scheme is successful, larger composite directories will be created (with all languages in combination). This will also be hosted online as an interactive marketing website.

An experienced account and project manager, Paul has vast experience of putting together traditional and new media solutions for clients who need more than just his services as a copywriter.

He's managed pan-European projects in as many as 8 languages, repeatedly demonstrating an ability to save more by prudent management than he earns.

Those who have worked under his supervision include photographers, composers, voice-artists, musicians, designers and artists, translators, printers, finishers and fulfilment houses.

Jobs have always been finished on-time and on-budget whilst exceeding client specifications.

As a store manager you have much in common with the Emperor Shih Huang Ti.

You both have had to use imagination to deal effectively with invading hordes.
